

CarboTech
The activated carbon people

THE ADVANTAGES ARE CLEAR!

Activated carbons for treatment of liquids

Multiple ways of treating liquids: As well as water, many other liquids also need to be filtered. Applications are mainly in the food and beverage industries. There is a solution to each one of these challenges: activated carbons from CarboTech!

Can be used in many areas: Our activated carbon is suitable for a host of applications in the food industry, including many different uses when it comes to treatment of liquids. These include things like purification of drinking water, decolourisation of juices and removal of odour-changing and taste-changing substances in vodka.

Our experts will be happy to help with special situations – our expertise means we're also able to help with speciality requirements, and we'll be happy to create a made-to-measure solution that does the job spot-on.

CarboTech is one of Europe's leading supplier of powdered, granulated and extruded activated carbons. The company operates integrated production plants for the manufacturing, processing and packaging of customised activated carbons, activated cokes and Carbon Molecular Sieves.

Quality: Since CarboTech works consistently with its customers interests at heart, our top priority is to constantly improve operational achievements. High demands of product and service quality go without saying for every employee.

Experience: CarboTech combines experiences from production, application and process engineering. From a strategic point of view, it has traditional requirements as much in its sights as it does innovative services. The commitment of experts with a precise knowledge of practical conditions is highly prized by our customers.

Cost-effectiveness: The use of our special activated carbon products makes permanently reliable and cost-effective solutions possible.

Furthermore we offer thorough and expert advice to all the aspects regarding the selection and application of our products.

We are looking forward to hearing from you.
