

CarboTech

The activated carbon people

THE ADVANTAGES ARE CLEAR!

Activated carbons for air filtration

Solutions for purifying air: Clean air is a requirement in many industrial applications, for example in the electrical industry, the automotive sector and the chemicals industry. Harmful airborne components such as nitrous oxides (NO) or sulphur dioxides can be safely removed with the aid of activated carbon from CarboTech.

Suitable products for filtration in different environments: CarboTech has a comprehensive range of activated carbons suitable for filtering all kinds of room air. These include pelletised carbons for pharmaceutical facilities, and also material for fixed-bed filters in cartridge solutions, or granulated solutions for paper filters.

Highest quality standards: Our activated carbons consistently meet the highest quality standards, ensuring best-possible compliance with agreed filtration parameters. We have decades of experience in indoor air cleaning and know exactly what is important.

CarboTech is one of Europe's leading supplier of powdered, granulated and extruded activated carbons. The company operates integrated production plants for the manufacturing, processing and packaging of customised activated carbons, activated cokes and Carbon Molecular Sieves.

Quality: Since CarboTech works consistently with its customers interests at heart, our top priority is to constantly improve operational achievements. High demands of product and service quality go without saying for every employee.

Experience: CarboTech combines experiences from production, application and process engineering. From a strategic point of view, it has traditional requirements as much in its sights as it does innovative services. The commitment of experts with a precise knowledge of practical conditions is highly prized by our customers.

Cost-effectiveness: The use of our special activated carbon products makes permanently reliable and cost-effective solutions possible.

Furthermore we offer thorough and expert advice to all the aspects regarding the selection and application of our products.

We are looking forward to hearing from you.
